

Fertilizer and Pest Control Information

Clinton Central School Corporation is inviting you as parents, guardians, patrons, and staff to sign up on a registry if you are interested in being notified in advance of any type of pest control we would be applying on our campus. This would include treatment inside and outside for insects and treatment for weeds and applying fertilizer outside on school grounds.

Please call or email your contact information to:

Dana.mcgill@clinton.k12.in.us

Phone: 765-249-2255 ext. 286
